ELECT SENATORS BY THE PEOPLE

Four Bills to Bring This About Introduced in Senate---Investigate Panama Deal.

Washington, April 6.—The House at 12:40 adjourned until Monday.

No committees were named today. The Senate at 1:07 p. m. adjourned until Monday.

The third day of the extra session of Sixty-Second Congress found the Democratic members of the House still confronted by several problems of organization and the legislative program not yet finally decided upon.

It was the hope of the leaders that a number of the new committees could be organized today. Representative Mann, the minority leader, intrusted with the duty of selecting the minority membership, expected to be ready with nominations for several of the more important committees soon after the House met today. The House then would witness the inauguration of a new era in nation legislative affairs.

The new committees are to be elected by the House itself. The Democratic nominations have all been prepared by the ways and means committee acting as a committee on committees and the slate thus made up will go through without a change. The Democrats also are expected to vote for the minority selections.

Considerable interest centers in the assignments that are to be given to the Republicans insurgents in the House. It has been reported that Mr. Mann would prove liberal.

For Popular Election of Senators.

Washington, April 6.—Three bills providing for the popular election of United States Senators were introduced in the Senate today. One of the bills was introduced by Senator Borah of Idaho. Senator Borah's measure is similar to the bill which was introduced at the last session, with the exception that certain changes have been made which remove objectionable features. One of these was the provision which left control of the elections in charge of the federal government.

Senator Bristow of Kansas and Senator Culberson of Texas both introduced popular election bills.

Senator La Follette of Wisconsin and Senator Lodge of Massachusetts introduced measures providing for a tariff commission. Senators Owen and Brown have measures for the approval of the constitutions of Arizona and New Mexico and their admission to the Union. These bills were also introduced today.

President Will Confer With Man Who Would Rather Be Right Than Have the Job.

By Publishers' Press. Washington, April 6.—President Taft has arranged a conference with William J. Bryan, at the White House, tomorrow. The President has allotted thirty minutes for the meeting. The nature of the conference has not been disclosed and no one knows what the President and the man who has so often tried to secure that office will talk about when they meet.

Acquisition of Panama May Be Investigated.

By Publishers' Press. Washington, April 16.—Congressman Rainey of Illinois is responsible for a bill designed to start an investigation of the acquisition of the Panama canal by the United States. The bill was presented in the House today. It proposes an investigation of the legality of the action of this country in acquiring the canal. The bill is the outgrowth of the recent assertion by ex-President Roosevelt that "I took Panama without consulting Congress." Congressman Rainey believes if this statement is true, it makes an investigation of the transaction imperative.

OWLS

Organizers of the Order Fined Heavily by Charlotte Recorder—\$250 Each and Costs for Doing Business in Alleged Violation of State Law—Appeal Taken.

Charlotte, April 6.—Recorder D. B. Smith this morning announced his decision in the cases against J. J. Arlington and J. H. Holland, organizers for the Order of Owls, who were arraigned and given a hearing Wednesday morning on the charge of "soliciting and negotiating contracts of insurance with a foreign insurance company not licensed in this State." The two defendants were fined \$250 and the costs each. T. C. Guthrie, representing the defendants and the Order of Owls, appealed the case to the higher court and a bond of \$500 was given in each case.

It will be remembered that Chief Christenbury recently received a telegram from State Commissioner of Insurance J. R. Young instructing him to arrest Arlington and Holland and hold them until the case could be prepared.

These gentlemen arrived in the city recently for the purpose of organizing a nest of Owls. They took offices on East Trade street and immediately began the task of organizing a branch in Charlotte. They had met with much success before the arrival of Commissioner Young's order. Holland and Arlington were put under a \$200 bond each, and Mr. Caulfield, general organizer of the order in the United States and Canada, whose home is in Birmingham, Ala., was summoned to Charlotte, in order to straighten out the tangle.

The defense contended that at the time of their arrest Messrs. Arlington and Holland were not representing an insurance company and that the insurance feature of the Owls was in no wise connected with the home nest, but that this was entirely optional with the members of the local nest and that they could accept or reject this feature, according to the vote of the local members.

The State produced circulars and letters, which had been distributed by the defendants, in which it was stated that the Owls provides a sick benefit of \$100; a physician in case of illness. Mr. Pharr contended that this was certainly an insurance feature.

Mr. Guthrie gave notice of an appeal for his clients. He produced a copy of the constitution and by-laws of the Order of Owls, which he declared was almost identical with the constitution of the Owls. The Eagles have not been molested in the State. The Owls too have a nest at Wilmington, which has been in existence for some time and has not been molested by the State officials. In Atlanta, Ga., Mr. Guthrie declared, there is a nest with 3,000 or more members among the members being Governor Hoke Smith and other State and city officials.

Diaz Fears the Intervention of U. S.

By Publishers' Press. Mexico City, April 6.—While there are no outward signs of a revolutionary movement in the capital, reports from all parts of the Republic are of a most disquieting nature. It is said that Diaz, despite his repeated assurance of faith in President Taft's statement that the army was mobilized for army maneuvers, fears ultimate intervention on the part of the United States.

Coca Cola Wins Suit Brought by The Government

By Publishers' Press. Chattanooga, Tenn., April 6.—In the case of Government vs. Forty Barrels and Twenty Kegs of Coca Cola, the court decided in favor of Coca Cola. The case was brought to test the right of the manufacturer to sell the beverage under certain license and will be carried to the Supreme court. Already thousands of dollars have been spent during the litigation. J. T. Lupton is president of the Coca Cola Company.

SUPREME COURT TO DECIDE ON VALIDITY OF REVENUE ACT

Appeal From Judge Daniels' Decision will be Argued Tuesday—Y. M. C. A. Building Committee will at Once Get Busy and Secure Site.

Special to The Telegram.

Raleigh, April 6.—Judge Daniels, of the superior court, having ruled against the validity of the revenue act of the recent legislature in the suit of the Governor vs. State Auditor as to constitutional question between poll and property levies for state taxes, Attorney General T. W. Bickett, this morning procured from the supreme court an order for the appeal from the Daniels decision to be advanced so that it will be heard next Tuesday and decided as speedily as possible. This is because the whole machinery of the revenue act is tied up pending the determination of the case which involves a revenue of possibly \$400,000 for the public school fund. The Daniels ruling has the effect of requiring the levy of poll and property, tax of 1900 which was \$1.20 poll and 43 cents property instead of the \$1.35 poll and 45 cents property tax that the recent legislature intended but lost out on by not adjusting the poll to the question when a two-cent tax for additional school fund was tacked on the property rate.

School For Feeble-Minded.

Steps for the establishment of the proposed \$60,000 North Carolina School for the Feeble-Minded provided for by the recent legislature were taken today through the initial meeting of the board of directors appointed by Governor Kitchin with the approval of the state senate. Dr. J. V. Joyner, state superintendent of public instruction is chairman and the other members of the board are L. B. McBrayer, Asheville; R. E. Austin, Albemarle; Frank B. Hendren, Wilkesboro; W. A. Thompson, Aurora; Mark Majette, Columbia; J. R. Baggett, Lillington; I. M. Hardy, Washington; A. A. Kent, Lenoir; R. N. Cartwright, Fairfield. The board determined to take steps at once for the selection of a site which must be with the approval of the governor and council of state. The state is to issue bonds for the \$60,000 to provide the money and the directors are empowered by the act to receive donations from citizens if any are offered.

Rifle Range Meets.

In connection with the preparations that are afoot for rifle range competitive meets of teams from companies of the respective regiments, the meets to be on the ranges at Raleigh, Gastonia and Goldsboro, the officers for the meet three days as there is urgent necessity at Raleigh were named today by Adjutant General Leinster. The Raleigh meet will be April 18 to 20. The officers are J. J. Bernard, Raleigh, commander; Lieut. J. Leigh Skinner, Raleigh, executive officer; Capt. Chas. J. Smith, Henderson, executive officer and Lieut. W. R. Miller, Raleigh, adjutant.

Pulling For Candidates For Judge.

During the absence of Governor Kitchin from the city today telegrams and letters urging one and another of the Fifteenth district candidates for the judgeship to succeed the late Judge Adams poured into the executive office. They are principally in the interest, in varying volume, of Frank A. Carter, Judge J. D. Murphy, T. A. Jones, J. S. Adams, (son of the deceased jurist) and A. S. Barnard. These, it is authoritatively learned, are the names that are being urged before the Governor as proper judicial timber for this appointment. It seems certain that the appointment will be made within the next few days for the services of a judge in the next of Judge Adams if there is not to be still further congestion of superior court dockets that have been increasing steadily in spite of the fullest possible work of all sixteen judges of the superior court bench.

Y. M. C. A. Building Site Will Be Selected.

The forces behind the movement for the Raleigh Y. M. C. A. movement that made the remarkable record of rounding up over \$75,000 instead of the \$65,000 first planned for, within eight days, are determined to let no "grass grow under their feet" in ridding Raleigh of the distinction of being the only state capital in the country having no Y. M. C. A. The executive committee for the

selection of the site, the adoption of the plans and the speediest possible erection of the association home has just been appointed and proposes to get busy at once in this direction. Cary J. Hunter, W. H. Williamson, Dr. H. A. Royster, Albert L. Cox, A. A. Thompson, N. B. Broughton and Josephus Daniels are the committee.

Commercial Secretary Busy.

Secretary Olds, of the Raleigh Chamber of Commerce, is appealing to the people of Raleigh that Charlotte, Winston-Salem, Greensboro, High Point and other towns in the state have struck the note of attracting diversified industries and insisting that Raleigh cannot develop in these directions as she should until the people here fall in line. He declares that the remarkable Y. M. C. A. campaign here shows a unification of forces among the citizenship that will largely remedy the handicap that the city has suffered in the past.

The Municipal Campaign.

Mayor J. S. Wynne has withdrawn from the race for re-election in the impending municipal campaign and ex-Mayor James I. Johnson, who led the old so-called "Democratic machine" faction in their unsuccessful but sensational campaign two years ago against the "good government" Democratic forces, without opposition in the impending primaries. He is understood to have pledged support to the aldermanic candidates of the "good government" mass meeting, thus cutting out all possibility of any especially strenuous party factional contest this time. Other contests for city offices will be fought between individual candidates without special factional alignment.

Supreme Court Decisions.

In the noted damage suits of J. Sherwood Upchurch and others against Mayor J. Stan Wynne and Chief of Police Stell for seizing the Academy of Music, ejecting the manager and his assistants and imprisoning two of them for refusing to surrender keys in order to prevent the presentation of the Girl From Rectors as too indecent to be presented in Raleigh, the supreme court affirms the lower court in disallowing demurrer to the bill of indictment. This action has the effect of establishing cause of action against the mayor and chief of police so that the case must now go to a jury.

The supreme court in Carson vs. Bunting and Southern Oil Co. from Pitt county, rules that the state law giving a penalty of \$10 for every bag of fertilizer not branded to show the contents, the penalty to be recovered by any citizen suing. The case was one in which there were 196 bags and the penalties aggregated \$1960.

The full list of sixteen appeals disposed of this week follows:

Field vs. Hill, Lee county, affirmed. McCauley vs. Land & Timber Co., Durham, docketed and dismissed under rule 17.

Campbell vs. Southern Railway Co., Moore, docketed and dismissed under rule 17.

State vs. Van Yates, Wake, affirmed. Carson vs. Bunting and Southern Oil Co., Pitt, plaintiff's appeal reversed, on second cause of action; affirmed on first cause of action; defendant's appeal same cause no error.

Jeffress vs. Town of Greenville, Pitt, affirmed.

Brown vs. Hobbs, Duplin, affirmed.

Riley vs. Sears, New Hanover, Bellamy's appeal, error; plaintiff's appeal judgment modified; costs against the plaintiff.

Tart vs. Tart, Sampson, judgment modified in both appeals, each party paying own costs.

Bryan vs. Hilton Lumber Co., New Hanover, new trial.

Norris vs. Holt-Morgan Mills, Harnett, no error.

Upchurch vs. Wynne and Stell, Wake, affirmed.

Andrews & Brewer vs. Wynne and Stell, Wake, affirmed.

Dowdy vs. Dowdy, Chatham, appeal dismissed.

Rollins vs. Wicker, Lee, no error.

BEACHY

Well Known Aviator will fly at Fair Grounds This Afternoon.

Lincoln Beachy, the well known aviator, arrived in the city yesterday from Pinehurst, accompanied by his wife, and is stopping at the Guilford. This afternoon from 3:30 to 5:30 o'clock at the fair grounds, west of the city, Beachy will give a flying exhibition, the first feat of the kind ever seen in the city.

Beachy's machine, a Curtiss-type biplane, arrived yesterday and will be unpacked and put together this morning. The machine will be stationed in the center of the race course in front of the grand stand and every spectator will have ample opportunity to notice the workings of the mechanism as the machine rises into the air at the will of the operator. Before the flight is attempted a short address will be made, explaining the mechanism.

It is expected that thousands will go to the fair grounds to witness the spectacular feat of rising in the air in a machine considerably heavier than the air. Contemplating the large attendance the Public Service Company will operate a special car service both on the Park and Piedmont Heights line. Beginning at 12:30 o'clock a ten-minute schedule will be maintained on the park line, while a twenty-minute schedule will be maintained from the passenger station on the Piedmont line. This line will carry passengers as near the fair grounds as the park cars and people living on West Lee are asked to take these cars. The above schedule will be maintained until 6 o'clock.

SUIT OVER \$2 COSTS \$1000

Neighbors Have a Costly Legal Squabble About Car of Hogs.

Bellville, Kan., April 6.—Frank Rost and Frank Konovalski, neighbors, made a shipment of hogs to Kansas City last fall. A controversy arose over shrinkage of the stock. Rost asserted that Konovalski owed him \$2.26, but the latter refused to pay, contending that both, having consented to the shipment, each should stand a share of the shrinkage in proportion to the number of hogs shipped by each.

The case was tried in the Justice court and was later appealed to the District court. The costs, including attorneys' fees, witness and other fees, amount to nearly \$1000.

WASHINGTON LADIES TAKE TO AVIATION.

By Publishers' Press. Washington, April 6.—Mrs. Nicholas Longworth, accompanied by Misses Ruth Wynn and Laura Merriam, prominent Washington society girls, made flights this afternoon with Rex Smith in his biplane. The ascents were made at Potomac Park.

Iron Bar was Concealed in Jail

An iron bar was found concealed inside the cells on the first floor of the county jail Wednesday morning, it being evident that the bar had been handed to the prisoners by one of those escaping several nights ago as the bar was similar to the one used, if not the same one. A close watch is now being kept on the prisoners confined in the jail.

Grandfather of Insurrecto Leader Dies in Monteroy

By Publishers' Press.

El Paso, April 6.—Evaristo Madero, grandfather of Francisco I. Madero, leader of the insurrectos, died today at his home in Monteroy, at the advanced age of 83 years. The deceased was the head of a family that numbers close to a thousand members, operating factories, farms, vineyards, wine mills, etc., throughout the state of Coahuila, of which he was at one time governor. Evaristo Madero's fortune is estimated at \$30,000,000.

JURY IN THE SPEAKS CASE

Twelve Men who will Determine as to his Sanity or Guilt Selected.

In Guilford Superior court yesterday afternoon the case of State vs. Moses Speaks was taken up. The jury was selected during the afternoon, following which court adjourned for the day. The following are the jurors selected to pass upon the case: W. H. Zimmerman, J. S. Greeson, W. J. Stafford, A. W. Scoggins, J. F. Farrington, J. S. Ingold, I. F. Bennett, R. P. Gordon, Jas. B. Minor, A. F. Greeson, A. B. Lee, D. R. Aiken. The selection of the jury required some time, nearly everyone of the special venire of 75 being called before the twelve were chosen.

The taking of testimony will begin this morning. By consent the jury will in addition to deciding as to the guilt or innocence of the prisoner at the bar also decide as to his insanity. They will first determine from the evidence submitted whether or not Speaks is insane. In case they so decide this will end the case, but if they believe that he is sane they will then proceed to determine whether or not he is guilty of murder in the first or second degree.

There is much interest in the case and the court room was crowded during the entire afternoon. The case will hardly be concluded today.

The case against Charlie Holt, charging retailing, was taken up yesterday and after wrestling with the proposition for several hours the jury reported that it was unable to agree and a mistrial was ordered. The jury stood ten for conviction and two for acquittal.

J. ELWOOD COX MEMBER STATE BUILDING COMMISSION.

Mr. J. Elwood Cox, who was appointed on the State Building Commission, has notified the Governor that he would accept. The other members of the commission who have accepted are Hon. J. A. Long, of Roxboro, and Senator A. S. Rascoe, of Bertie. The commission will have in charge the erection of the new state building to be erected in Raleigh. —High Point Enterprise.

PREFERS PRISON TO DRINK

"Sinbad the Sailor," on Parole, Returns to Cell to Avoid Backsliding.

Stillwater, Minn., April 6.—"Sinbad the Sailor," whose real name is Charles Price and who has been out of the Stillwater Penitentiary since August 1, 1910, on parole, has voluntarily returned to the prison.

He was sent to prison in 1898 on conviction of murder in the second degree. When he arrived here a few days ago on one of his regular visits he told the police he was afraid temptation would be too great for him and that he did not want to violate the conditions of his parole.

During the years he was in the prison he worked in the greenhouse and developed great skill in producing freak plants. He grew mammoth lemons by grafting grapefruit on lemon trees. One lemon measured 19 1-2 inches in circumference.

MILADY FACES MELTED LEAD

Awful Penalty for Long Hatpins Proposed in Jersey.

Trenton, N. J., April 6.—If boiling oil or melted lead can do it, the peril of women's hatpins is to be reduced to a minimum when the Legislature finds it expedient to pass a bill introduced by Assemblyman McGowan, of Essex, tonight. The measure provides that such pins shall not be permitted to extend more than a half-inch beyond the outer surface of either side of milady's hat unless protected by some device.

The first offense is punishable by a fine of \$5, the second \$25, the third not more than \$50 and the fourth to be made a misdemeanor, with "something like boiling oil or melted lead" as the penalty.

McGowan is married, and he says he is in earnest in his bill, as he has heard many complaints of the dangers of the elongated spears which women use to keep their headgear in place.

After all, Senators Simmons and Bailey may be forced to revise their estimate of Senator Lorimer.

While the Congressional Record has not exactly changed its politics, it is probable that it will contain in the future more Democratic speeches and doctrine than for many years past.

Man named Sapp threatens to run as an independent for mayor of Kernersville. Well, this is spring, and it may be the proper time for Sapp to begin to think about rising in politics.

The business mayor of Charlotte was defeated, after one term, which indicates that some towns do not want a business administration of municipal affairs.

Senator O'Gorman has a family of eleven children. Being a Democrat is probably responsible for that fact that Mr. O'Gorman was never signaled out for the bestowal of Mr. Roosevelt's approval.

An exchange refers to Governor Blease as the wild cat chief executive of South Carolina. Blease appears to have some of the characteristics of a wild animal, but his claws are not long enough for a wild cat's.

During the past few days the April showers supplied to this section by the Weather Clerk have been as heavy as the Democratic deluge which is sweeping the country in politics.

Live advertisers in politics ought to leave Charlotte and come to Greensboro. It would not cost as much money to be elected to a Greensboro commission as it costs to be elected mayor of Charlotte.

William Thum, inventor of fly paper, a California millionaire, has been elected mayor of Pasadena. Thum is a Socialist. His success in catching on in politics naturally leads to the conclusion that he is prepared to stick.

The country will please take notice that Carter Harrison of Chicago "came back". After serving four terms as mayor and being out of office sixteen years, Carter has been called to take charge of the job again.

Congressman E. E. Roberts of Nevada, the lone Congressman from the silver State, has the unique distinction of being the only Republican elected in a Democratic district at the last election. Nobody appears to know how he managed to slip in.

Prof. Wilson was eminently successful in New Jersey, but Prof. Merriam proved a failure as a candidate in Chicago. The difference is probably largely in the fact that Prof. Wilson is a Democrat and Prof. Merriam is a Republican. This is an off year for Republicans. The people prefer almost any sort of Democrat to a member of the G. O. P. organization.

"Watch North Carolina grow," advises the Burlington News. It is worth while. North Carolina is making as much progress as any of the Southern States, with one or two exceptions, and during the past decade her progress and development was greater, perhaps, than the average for the United States. North Carolina is a great State, inhabited by good old-fashioned Americans, but old fashioned only in their ideas of Americanism. In business they are as modern in their views and methods as the people of any State in the Union. It is worth while to watch North Carolina grow.

Spartanburg Herald has little confidence, apparently, in Champ Clark's ability to make good as Speaker. The Herald has sounded the only pessimistic note heard in regard to Speaker Clark. The country at large seems to have great confidence in his ability and in his honesty of purpose. An honest man

might fall as Speaker for lack of ability and tact and the qualifications necessary to successfully fill this important position, but Champ Clark has the advantage of long service in Congress and if experience counts for anything, this coupled with his native ability should enable him to make a good record as Speaker.

CHICAGO'S MUNICIPAL ELECTION.

The election of Carter Harrison as mayor of Chicago by a plurality of more than seventeen thousand votes is an emphatic declaration for a "wide open town." Charles E. Merriam, the Republican candidate, made his fight on a platform declaring for civic reform and a clean city morally. Harrison had the active support of the entire "wide open" element. The election of Harrison furnishes sufficient proof of the fact that Chicago prefers to wallow in the mire. Chicago does not want to be cleaned up or reformed.

The Chicago election was a blow to the hopes of the Socialists. They confidently expected to poll fifty thousand or more votes for their candidate, William E. Rodriguez. He secured less than twenty-five thousand votes.

Harrison went to victory with a majority of the Democratic candidates on his ticket. The Democrats have a decisive majority in the City Council. Harrison declares he is going to give the city an honest administration of the police department, on a "liberal" basis.

Free Trade With Canada.

Happily there is no labor question to hinder the adoption of the reciprocal trade agreement with Canada. Canadian wages in the Eastern Provinces are about on a level with the wages paid in our Eastern States. The farmers in the Canadian Northwestern Provinces pay larger wages than are paid by farmers in our Western States, and Canadian farmers find the most serious drawback to successful clearing and culture of their lands in the lack of a suitable labor supply.

The demand for labor in Canada will be a continuing drawback to the development of the resources of the country for years to come. The population of Canada is about the same as the population of Pennsylvania, while its area is greater than that of the United States. Under such conditions, there being no bar to the movement of laborers from one country to the other, the argument against free inter-trading because of cheap labor falls flat, and with it the more serious objection to the free exchange of all forms of production.

By examining current market reports of pieces for farm products in Canadian and American cities, the farmers of both countries will find no occasion for alarm. Horses, cattle, sheep, hogs, fruits, vegetables, eggs and butter bring better average prices in Canada than here. On the other hand, Canada can sell us cheaper lumber, fish, paper, wood pulp and pulp wood than we can obtain from our own sources of supply. The Canadians are altogether, in the amount of their purchases per capita, the best customers we have. Last year we sold them goods to the value of \$223,501,809. Our total purchases of Canadian goods for the same year were valued at \$104,199,075. That was not bad swapping. While there is entire good feeling between the Canadians and ourselves, this heavy trading is not for love. It is for mutual advantage. It is the consequence of proximity. The more we trade the better off are both sellers and buyers.—Philadelphia Record.

A financier says that "corporations have done the public good." Nobody disputes that. They certainly have done the public good and plenty.—Philadelphia Inquirer.

Grand Jury's Charges Justified. It appears that there was something more than hot air in the recent report of the Guilford county grand jury. Especially is that so as to the jail, which was pronounced unsafe and unsanitary. Six prisoners took French leave of that institution one night last week.—Burlington Dispatch.

A Spring Suggestion by a Trained Druggist. Appendicitis and many other ills come from Constipation and over-loading with food which the system cannot care for. Kicked By a Mad Horse. Samuel Birch, of Bestown, Wis., had a most narrow escape from losing his leg, as no doctor could heal the frightful sore that developed, but at last Bucklen's Arnica Salve cured it completely. Statements issued by Chicago railroad officials announce that a general curtailment in the number of employees of the various companies has been effected during the last six weeks.

A Reliable Medicine—Not A Narcotic. Mrs. F. Marti, St. Joe, Mich., says: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar Compound in which I have great faith. It cured the cough as well as the choking and gagging spells and he got well in a short time. Foley's Honey and Tar Compound has many times saved us much trouble and we are never without it in the house." Howard Gardner.

The legislature of New Hampshire has done so little since it met that Governor Bass declared that "nothing had passed the body except nine weeks."—Memphis Commercial Appeal.

DISPATCHING BY TELEPHONE ON THE ABERDEEN AND ASHEBORO.

Asheboro, April 6.—The Aberdeen and Asheboro Railroad, which operates entirely in North Carolina, has purchased telephone equipment to take the place of the telegraph for dispatching trains.

A central station will be established and a switchboard installed at Biscoe. Four telephone lines will enter this switchboard and will terminate at Asheboro, twenty-seven miles away; Mount Gilead, twenty-five miles, Ellerbe, twenty-three miles, and Aberdeen, 47 miles including branches. There will be a total of twenty-one telephone stations on these four lines.

Through the medium of the switchboard at Biscoe the dispatcher will be able to reach any station he desires, and the traffic on the entire road will be under his supervision. Arrangements also will be made for connections with several local lines at Biscoe.

Safe Medicine For Children

Foley's Honey and Tar Compound is a safe and effective medicine for children as it does not contain opiates or harmful drugs. The genuine Foley's Honey and Tar Compound is in a yellow package. Howard Gardner.

Meredith Was Grateful.

A patronizing young lord was seated opposite the late George Meredith at dinner one evening. During a lull in the conversation he adjusted his monocle, and leaned forward toward the author. "Aw, y' know, Mr. Meredith," he drawled, "I pawssed your house this morning."

"Thank you," said Meredith quietly. "Thank you very much."

Never Out of Work.

The busiest little things ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, languor into energy, brain-fag into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. Only 25c at Fariss-Klutzn Drug Co.

Universal peace may not come just now, but it surely will come before the final breakdown of civilization under the ever-increasing cost of armaments.—Providence Tribune.

Saved His Mother's Life.

"Four doctors had given me up," writes Mrs. Laura Gaines, of Avoca, La., "and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good. I will always praise them." Electric Bitters is a priceless blessing to women troubled with fainting and dizzy spells, backache, headache, weakness, debility, constipation or kidney disorders. Use them and gain new health, strength and vigor. They're guaranteed to satisfy or money refunded. Only 50c. at Fariss-Klutzn Drug Co.

The Information Can Be Had.

Of course a county that issues bonds for good roads could waste a large part of it through ignorance of road building, but there is no longer any excuse for this. Many counties in the State have built good roads and they do not mind telling how it was done.—The Durham Herald.

Midnight In The Ozarks

and yet sleepless Hiram Scranton, of Clay City, Ill., coughed and coughed. He was in the mountains on the advice of five doctors, who said he had consumption, but found no help in the climate, and started home. Hearing of Dr. King's New Discovery, he began to use it. "I believe it saved my life," he writes "for it made a new man of me, so that I can now do good work again." For all lung diseases, coughs, colds, la grippe, asthma, croup, whooping cough, hay fever, hemorrhages, hoarseness or quinsy, it is the best known remedy. Price 50c and \$1.00. Trial bottle free. Guaranteed by Fariss-Klutzn Drug Co.

In calm weather a carrier pigeon can fly at the rate of 1,200 yards a minute; with the help of a moderate wind it will attain the speed of 1,640 yards; and before a strong wind 2,000 yards.

What He Meant.

His ideas of work were very primitive. He was always deeply absorbed in thinking profound thoughts, and he airily explained to others who questioned him that it amused him to watch work accumulating—so that it might be handy in case he wanted it.

"Young man, do you work here?" asked a mild and amiable old gentleman who had unexpectedly looked in, to find our hero engaged in gazing at the clock and lolling back in his chair.

"Yes, I do," was the languid reply. "Pardon me, but you have the tenses mixed," said the visitor. "You mean you did."

And on the next salary day the languid one discovered that the old gentleman's grammar was better than he thought, for he was the chairman of the board of directors of the company.

Good results always follow the use of Foley Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders. Try them. Howard Gardner.

FASHION'S FADS

Waist belts of white satin lacing in and out of black dresses are effective. Eyelet-hole embroidery in firm white linen is used for trimming the finest lawn dresses.

Bands of washing satin are effective on frocks of cotton or linen.

Beautiful linen coats are fastened with big buttons and rings made of jet. Feather-stitching on narrow bands of black silk makes very effective trimming for many dresses.

Insets of Irish crochet are seen in yokes of plain, tucked or spotted net. Basket-shaped hats of plaid silk are edged with fine lace, big white roses coming as front trimming.

Ninon coats are much in evidence this summer, and despite their apparent fragility, they are wonderfully useful garments, when a light wrap of some description is required for garden party or theater. To be entirely acceptable they should match the gown in color, or, for instance, one which is powder gray with gray and silver embroidery tassels. Finely striped gray-and-white and black-and-white silk gowns are according to fashion.

A revival is rumored of the bonnet of the days of our grandmothers, and that it will be arranged for women of all ages. A model shown recently by a leading milliner was of straw of a pale lilac color, and was covered with a profusion of leaves and veillings of black tulle, almost enough to trim a large hat.

NEW DEPARTURE.

Selling Medicine at Half Price Under Guarantee of Cure.

After two months of remarkable sales Howard Gardner, the enterprising druggist, says that his plan of selling at half price the regular 50 cent size of Dr. Howard's specific for the cure of constipation and dyspepsia, and guaranteeing to refund the money if it does not cure, has been the greatest success he has ever known.

Anyone suffering with dyspepsia, constipation, liver troubles, headache, dizziness, coated tongue, or the general tired feeling, caused by inactive liver and bowels or disordered digestion, should take advantage of his new departure and buy a bottle of Dr. Howard's specific at half price, with his personal guarantee to refund the money if it does not cure.

Those northern communities which have retained the whipping post do not exhibit a marked superiority of morals and behavior.—Mexican Herald.

One Conductor Helped Back to Work.

Mr. Wilford Adams is his name, and he writes: "I was confined to my bed with chronic rheumatism and used two bottles of Foley's Kidney Remedy with good effect. The third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street Railway. It will do all you claim in cases of rheumatism." It clears the blood of uric acid. HOW TO CURE ECZEMA.

ITCH AND ALL SKIN DISEASES

Don't suffer a moment longer with Eczema, or any form of skin or blood troubles. Don't scratch or rub the skin. Just apply Hancock Sulphur Compound to the affected spots and it will stop the itching at once, and cure the trouble permanently. One 50c bottle will cure that prevalent trouble, Common Itch. Nothing cures skin troubles so quickly as Hancock Sulphur Compound. To cleanse the complexion and remove black heads and pimples, use Hancock Sulphur Ointment, 25c. Mrs. Evelyn Garst, of Salem, Va., writes: "Three years ago I had a rough place on my cheek, it would burn and itch. I was fearful it might be of a cancerous nature. I used different preparations, but nothing ever helped it. One bottle of Sulphur Compound cured me completely. I recommend it to any one having any skin disease." SNAPSHOTS AT CELEBRITIES

Chase S. Osborn, New Governor of Michigan.

Photo by American Press Association.

Chase Salmon Osborn of Sault Ste. Marie, the new governor of Michigan, is the first citizen of the upper peninsula to hold the office of chief executive. Before his inauguration Mr. Osborn intimated that he would not be a candidate for a second term, as he desired his administration to be free from political considerations. By profession a newspaper man, Governor Osborn is a brilliant public speaker and is also the author of several books of travel.

A native of Indiana, he there began the newspaper work in which he later won success. After a reportorial experience in Chicago he removed to Milwaukee and in 1887 to Sault Ste. Marie, becoming proprietor of the News. After fourteen years of success with this paper he sold out and now publishes the Saginaw Courier-Herald.

Mr. Rainey of Illinois.

Among the men selected by the Democratic caucus for a place on the house ways and means committee in the Sixty-second congress, which will be controlled by the Democratic party, is Henry T. Rainey of Illinois. Mr. Rainey is serving his fourth term in the house of representatives and has often been in the limelight. A year or so ago, when the Ballinger-Pinchot controversy was at its height, Congressman Rainey was named as one of the

house committee to investigate. Because of President Taft's objection, however, his name was withdrawn.

Congressman Rainey is a native of Carrollton, Ill., and has always made the town his home. He was graduated from Amherst college, Massachusetts, and from the Union College of Law, Chicago, being the valedictorian at the latter institution in a class of fifty students.

Mayor McCarthy's Luck.

"A man's health is often the making of him," said Mayor P. H. McCarthy of San Francisco at the Willard. "On April 6, 1886, I was a carpenter in Chicago. I had been in ill health for some time. That night I went to the theater with two companions. After leaving the playhouse we walked through State street, and I saw a sign in a railroad ticket office. It read, 'Out rate to California; \$14 to San Francisco.' I was greatly impressed and told my friends I would like to take the trip.

"We talked over the matter for half an hour, and the following day saw us on a train bound for the Pacific coast. After traveling along the coast we finally decided to turn our backs for ever on Chicago and the cold lake breezes. That was the best thing I ever did. We procured employment and remained near the Golden Gate. The next time I saw Chicago was in 1900 when on my way to Scranton, Pa., to attend a labor convention. Search for health finally resulted in my rise in the world."—Washington Post.

A TIMELY SUGGESTION.

Cherry Party For
the 22d of February.

WASHINGTON BIRTHDAY FAVORS.

A hostess who has planned to entertain some friends at a cherry party on Washington's birthday has found that the artificial cherries sold by confectioners, etc., are much too expensive for her purse, and she will substitute big red cranberries with excellent effect.

The invitations are written on postals decorated with cherries, which are sold everywhere in February, and begin as follows:

Next Friday night at half past eight
We beg you'll help us celebrate
Great George and the immortal tree.
His gift to all posterity.

After this come the address, date and hour.

The first thing to catch the eye of the guest entering the parlor on the appointed evening will be a cherry tree in a wooden tub. This is constructed of a dead sapling tricked out with tissue paper leaves and at once becomes the basis of a jolly game where each player receives a big cranberry with a thread drawn through it (by means of a needle) and is required to tie it on the tree while blindfolded. All those who accomplish the feat will receive points toward the prize.

Another jolly contest will be guessing the number of cherries in a basket filled with them. The player who comes nearest to the exact number receives a second point.

When the guessing is over each player thrusts his hand into the basket, palm side down, the idea being to see who can catch up most cranberries on the back of the hand and, so balancing them, walk around the room without spilling one. The player most successful is entitled to a point.

Tossing the cranberries into a bowl at the opposite end of the room is another feat on the program and offers another point for the successful competitor.

The first and second prizes will be candy boxes decorated with artificial cherries. Huge cherries made of scarlet crepe paper are the consolation prizes. Some new Washington birthday favors are pictured.

chiffon cloth dress mounted over white charmeuse that makes a good substitute. White porcelain beads in a faint pattern ornaments the bodice. By the way, these beaded effects are the smartest and newest thing in gown decoration.

Announcements

For Mayor.

To the Citizens of Greensboro:
I hereby announce my candidacy for the office of Mayor and Commissioner of Public Accounts and Finances of the City of Greensboro.

If elected I will advocate broad and progressive policies of government within the bounds of safe and economical business. And I shall endeavor to faithfully and efficiently perform the duties of the office, without fear or favor, but with courtesy and square dealing toward all the people.

Very respectfully,
THOMAS J. MURPHY.

To the Voters of Greensboro:

I hereby announce my candidacy for the office of Mayor and Commissioner of Public Accounts and Finances and if elected to this office, it will be my purpose to keep myself fully informed upon all matters that affect the welfare of the city and I will exercise my best judgment and discharge with fidelity the duties of said office.

Respectfully,
S. H. BOYD.

For Commissioner of Public Works.

I hereby announce myself a candidate for Commissioner of Public Works.

Meeting Stockholders Mining Company

The annual meeting of the National Mining & Tunnel Company, of this city, was held yesterday afternoon in the company's offices in the Grissom building with a large and enthusiastic attendance of the stockholders. D. B. Coltrane, of Concord, was called to the chair and Dr. W. L. Grissom acted as secretary. After the reading of the report of the president, J. F. Horner, the general manager of the company at the mines, made a most interesting and illuminating address on the conditions at the mines.

The stockholders then elected the following as directors for the ensuing year: C. L. T. Fisher, of Lynchburg, Va.; D. B. Coltrane, of Concord; W. L. Grissom, of Greensboro; A. L. Baker, of Raleigh; F. R. Hanks, of Henderson; J. B. Pipkin, of Reidsville; F. T. Wall, of Kansas City; W. C. Houston, of Concord. After the meeting of the stockholders the directors re-elected C. L. T. Fisher as president, D. B. Coltrane, vice president; W. L. Grissom, secretary and treasurer; and A. M. Scales, attorney.

with J. F. Horner, of Leadville, Col., as guest of honor. Speeches were made by J. F. Horner and others.

This is Mr. Horner's first visit south and he expressed himself as delighted with Greensboro and this section. This company owns large and valuable mining properties at Leadville, Col., and is now engaged in opening one of the most improved mining tunnels in the country. The tunnel has now been extended more than 2800 feet and is being rapidly lengthened. The mines contain gold, silver and copper in abundance.

MAN SUICIDES OVER GRAVES OF HIS WIVES.

Redding, Cal., April 6.—E. E. Bailey, vice president of the Bank of Northern California, of this city, was found in a cemetery last night lying across the graves of his two wives with a bullet hole in his head and an empty revolver by his side. The following note was found on his body:

"I am weary and worn and physically and mentally unable to bear the load."

Bailey had been ill for weeks.

Women and Society

BENBOW—LONG WEDDING.

Marriage of Miss Marjorie Long to Charles D. Benbow, Jr., One of the Most Brilliant Social Events of the Kind Ever Held in City.

One of the most beautiful as well as the most largely attended weddings in the history of the social life of Greensboro was celebrated last evening at 8:30 o'clock when Miss Marjorie Long became the bride of Charles D. Benbow, Jr.

West Market Street Methodist church, the scene of the wedding, was crowded to its capacity long before the appointed hour and every inch of standing room was taken when the wedding march was begun. The church had been tastefully decorated in white and green, there being a bank of palms and ferns behind the altar.

The music was in charge of Prof. Claude Robeson and while the audience was assembling soft melodies floated from the organ. The following musical program was rendered: Festival March, by Scottson Clarke; At Twilight, by Harker; Cantine Nuptiale, by DuBois; Chorus of Angels, by Clarke. A quartet, composed of Mrs. W. H. Stone, Jr., Mrs. Fred Sparger, Edgar Clapp and Karl Ljung, sang the Bridal Chorus from the "Rosemaiden," being accompanied by Miss Phyllis Woodall on the violin.

The familiar strains of the Bridal Chorus from Lohengrin announced the entrance of the bridal party. The ushers, Dr. D. T. Webb, of Statesville; Cleo Davis, Wyeth W. Long, Lowry Stafford, Will Preyer and Donald Stafford, were the first to enter, coming by the right and left aisles. Next came the bridesmaids, Misses Mary Benbow, Mary Vanstory, Julia Bagley, of Blackstone, Va.; Margaret Wharton, May Norris Richardson and Jessie Woollen, of Randleman. They wore messaline satin, veiled with white marquisette, and pearl trimmings. They carried white roses.

Next came the maid of honor, Miss Douglas Hendrix, wearing white marquisette over messaline satin and carrying white roses. She entered by the center aisle. The groom, accompanied by his best man and brother, Edward Benbow, entered from the pastor's study.

At the same time down the center aisle came the bride, leaning on the arm of her father, who gave her away. She wore a handsome creation of white satin, veiled with marquisette, with real lace, passementerie. Her tulle veil was caught from her brow by a wreath of orange blossoms and lilies of the valley. Her bouquet was of white roses. Her ornaments were a diamond brooch, the gift of the groom's mother, and a diamond and pearl bracelet, the gift of the groom.

The bride and groom met in front of the altar and Rev. E. K. McLarty, using the impressive ring service of the Methodist Episcopal church, performed the ceremony. As the bridal party left the church the recessional from Mendelssohn was rendered.

The Reception.

From 9 to 11 o'clock a reception was tendered the bridal party and friends of the bride and groom at the residence of the bride, 115 Church street. Between three and four hundred called during the evening to extend congratulations. The house had been decorated in green and white, the color scheme being carried out so as to produce a most artistic effect. The bridal party, assisted by Dr. and Mrs. J. W. Long and Mr. and Mrs. C. D. Benbow, received in the parlor. The refreshments were served in the dining room.

Mrs. Benbow is the charming and attractive daughter of Dr. and Mrs. John Wesley Long and is one of the most popular of the young society women of the city and by her gentleness and lovable disposition has endeared herself to all who know her. The groom is one of the most popular young business men of the city and has hundreds of friends throughout the state. The esteem in which Mr. and Mrs. Benbow are held is attested to by the large and handsome collection of bridal presents received from all parts of the state and even from other states.

Mr. and Mrs. Benbow boarded No. 38 last evening, amid a shower of rice, for a trip to New York and other northern cities. They will return to the city in about two weeks and will make their home with Dr. and Mrs. Long, parents of the bride.

Here For Wedding.

Among the out-of-town guests who attended the wedding were: Wyeth Long, brother of the bride from Richmond, Va.; Mrs. J. H. Cole, of Randleman; Miss Julia Bagley, of Blackstone, Va.; Miss Lula McDonlad, of Raleigh; Mrs. Ernest Woodson, of Salisbury; Mrs. Ernest Murray, of Danville, Va.; Mrs. John R. Ferree, of Danville, Va.; Misses Eppie and Jessie Woollen, of Randleman; Mrs. Everett Carr, of Asheville; Miss Sarah Booe, of Walkertown; Miss Katherine Brabson, of Greenville, Tenn., and Miss Mary Walk-

er, of Randolph-Macon College, Lynchburg, Va.; Dr. and Mrs. D. A. Stanton, of High Point.

Recital At C. F. C. Tonight.

Miss Annie Woodley will give a song recital in the auditorium of Greensboro Female College Friday evening at 8:30 o'clock. The public is cordially invited.

Aid Society Easter Sale.

The Ladies' Aid Society of the First Baptist church is making unusual preparations for the annual Easter sale, which will occur on April 15, at the Public Service building. The sale will include almost everything seasonable at that time.

Meeting of Literature Department.

Saturday, April 8, is the next date on the club calendar for the literature department of the Woman's Club to meet. This promises to be one of the most enjoyable meetings of the year, and will be held in the Carnegie Library at 4:15 o'clock. A full attendance of members is desired. All members of other departments will be gladly welcomed.

Play At Normal Tonight.

The Cornelian literary society of the State Normal College will give "Twelfth Night" this evening at 8:30 o'clock in the auditorium of the Students' building. The play will be attended by the ball teams of the universities of North Carolina and Virginia. The tickets for the play are on sale at the Greensboro Drug Company and it is expected that a large number of Greensboro people and visitors to the city will attend.

Woods-Rothrock.

The marriage of Miss Lena Rothrock, the attractive daughter of Mr. and Mrs. E. A. Rothrock, of Thomasville, to Rev. Clarence Woods, pastor of the First Reformed church of Thomasville was solemnized in that church Wednesday evening at 7:30 o'clock in the presence of a large assemblage of friends of the contracting parties. The ceremony was performed by Rev. Jacob Calvin Leonard.

Mendelssohn's wedding march was played by Miss Zula Herrick as the party entered the church. The ushers were Messrs. F. E. Sigman and L. E.

DRY GOODS SHOES CARPETS

Sigman, of Greensboro; Henry Link and Harvey Herrick of Thomasville. The bridesmaids were Misses Bessie Wagoner and Emma Lee Smith. They wore white lingerie dresses, carrying pink carnations. Little Miss Claudia Woods, niece of the groom, was the ring bearer. The bride entered with her father. She was gowned in white silk en train and carried an arm full of carnations and lilies of the valley. Her veil was of white chiffon, caught with sprays of lilies. Mr. Robert Troxler of Greensboro was the groom's best man. After the ceremony the young couple left for a visit to the groom's parents and upon their return will be at home at the parsonage of the First Reformed church. Many beautiful and useful gifts were given the young people by their admiring friends.

Miss Viola Medearis will leave this morning for Durham to visit her aunt, Mrs. D. H. Wilcox.

The "FAT" from the FLOWER

Which would you prefer to put in your stomach—a fat such as lard, direct from the hog, or a vegetable product such as *Cottolene*, that is pure, healthful and easily digested?

Besides being healthful, *Cottolene* is a cleanly product. From Cottonfield to Kitchen—human hands never touch the oil from which *Cottolene* is made. Moreover, it is packed in patent air-tight tin pails—never sold in bulk—and is absolutely protected from air, dust and contamination.

We guarantee *Cottolene* to be fresh and satisfactory, or authorize your grocer to refund your money. Under such conditions why take chances with hog lard or any imitation of *Cottolene*?

NEWS OF SPORTS

SISSON'S STAR WORK.

Former Centerfielder of the Greensboro Club Doing Good Work With Columbus in the South Atlantic League.

Sisson of the Columbus team of the South Atlantic League is considered the best player of that team, by Columbus fans. Everybody remembers this star who played season before last with Pop McKeitt's Greensboro team, making a record which has won him a place with a league one class higher than the Carolina.

Sisson has been covering center garden territory with lightning speed and has won hearty admiration from the Columbus fans. He had a batting average last season of .212 and fielded .956 in the South Atlantic League.

FRANK DOBSON TO TWIN CITY

Star First Baseman is Awarded to Carolina Association Team by National Commission—Once Played With Anderson in This Circuit.

Winston-Salem will get Frank Dobson, the star first baseman, claimed by Richmond of the Virginia League, the national commission awarding him to Fayetteville of the Eastern Carolina League, which has sold him to the Twin city team. Dobson is no stranger in this league having played with Anderson the first season of the Carolina Association and also one year in the South Carolina State League when Anderson was a member of that organization.

Amateur Baseball.

The ball teams of the Pomona and Normal Practice Schools played yesterday afternoon, the game resulting in a score of 20 to 1 in favor of Pomona. Batteries: For Pomona, Simpson, Benbow, Rieves; for Normal, Boyd and Sheppard.

BRIEF BASEBALL BULLETINS.

Buck Freeman made 25 home runs for Washington in 1899.

Ducky Holmes holds a record of four assists to the plate from the outfield, made with the White Sox.

Otto Hess, ex-Philippine hero, now with New Orleans, may become a Cub. Chance is sweet on the blonde southpaw

and he can get him if he is willing to pay Manager Frank's price.

Crum Kaler, Nap pitcher, who graduated from Ohio State university before he became a professional, held New Orleans hitless for five innings.

Willard Robinson, McGraw's old Baltimore pal, will be carried by the Giants for the purpose of drilling young pitchers, a business he is strong for.

Up to date the cares of management have not seriously affected the playing of Hal Chase. The Highlander boss is murdering the ball and pulling off those infield thrillers that have made him famous.

McGraw finds fault with Fred Merkle for hitting the ball too far.

Louie Evans, Cardinal outfielder, once cleared the bases in a bush league town and a fan presented him with 15 cents.

The annual hop story about Cy Young's resignation appeared and New York fell for it like a boy tumbling off a roof.

A week after reporting Nap Lajoie was going at full speed without a sore muscle. Other players say he isn't human. That puts him in Bat Nelson's class.

The Fagot Gatherer.

In Europe every bit of wood is carefully saved and used, and the fagots of the forest furnish the peasantry with fuel. The Swiss boy is most expert of all the fagot gatherers, for he has to balance on his head and shoulders his awkward bundle of fagots while he leaps down the rough mountain side.

Dispositions.

I wonder if it's pen or ink That's cross. They're very nice with grownup folks, Of course. But soon as I begin to try To write with them they kick and fly And stub and splash with all their might And make my writing just a sight. I don't know if the pen's to blame Or not. It's certainly the ink that makes The blot. But anyhow I'd rather write With Mr. Pencil, gay and bright. He's kind and never twists and twirls. I think he's fond of little girls.

Household Hints

Neatness in the Home.

Neatness in the house in moderation is a most excellent thing, but if women exalt it into a fetish they should not waste their time in thinking of "men and fallars of that sort," but should remain in a state of single blessedness. No woman who cannot philosophically put up with a certain amount of disorder should ever marry, "for what with throwing matches in the grates and walking on the carpets with muddy boots and sitting on the antimacassars and crumpling them up there's nothing that makes so much dirt in the house as a man." "They are worse than dogs and children."

Washing Muslin.

Dissolve half a pound of yellow soap in a gallon of boiling water and pour it into a tub. Fill two more baths or tubs with clean tepid water. Stir a quart of bran into one. Immerse the muslin in the soapy water. Knead it between the hands, but do not rub it. Squeeze out as much of the water as possible by pressing well between the bran, move it about rapidly and leave to soak for a minute or two. Rinse it thoroughly in the clean both, squeeze as much of the water out of it as possible and hang up to dry. The whole operation should not occupy more than 10 minutes.

Helps for the Housekeeper.

Your shoes will last longer if you keep them well oiled in damp weather, and when they become wet through let them dry slowly or they will shrink or warp. When you spill ink on a carpet spread salt thickly on the place. If done at once, and left on for some minutes it will absorb the ink, and when removed no mark will be seen.

The marks caused by hot dishes may be removed by rubbing them with a soft cloth dipped in paraffin and then applying a little methylated spirit, which should be rubbed dry with another cloth.

With a total population of about one and a quarter million, the white races within the South African territory are responsible for the control of four and a half million natives in various stages of civilization.

Points For Mothers

The School Diet.

If early rising is insisted upon a child should never be set any task before breakfast, especially in winter, and if it is not expedient to serve a full breakfast at 7 the child should be given a bowl of hot milk and bread or a cup of cocoa with a roll or other light food. Breakfast may be served later, after the first exercises of the morning, and should be a substantial meal with animal food in the form of fish, eggs or cold meat of some sort.

There should also be porridge of wheaten grits or hominy with milk or cream and abundant sugar; also bread and butter, with some sweets in the form of jam, marmalade or stewed fruit.

Dinner, which should always be served near the middle of the day, should comprise meat, potatoes and one or two green vegetables and some form of sweet pudding. Supper, it is generally admitted, should comprise only easily digested articles of food, and such substances as pastry, cheese and meats are better omitted.

It should consist of either a porridge with milk or cream or a light farinaceous pudding of rice, tapioca, sago and the like, with bread and butter and some simple form of preserve. Stewed apples or prunes, light plain cake or a bowl of broth, with bread or crackers, may be substituted for porridge or pudding.

Children need fat, but they do not digest meat fat well, as a rule, and are very apt to dislike it. They will often take suet pudding, however, when hot mutton fat wholly disagrees with them. Milk should be freely supplied not only in the form of puddings and porridges, but as an occasional beverage, and children should be made to understand that when hungry they can obtain a glass of milk and a biscuit or a bowl of bread and milk.

Fresh fish, eggs and bacon are all wholesome and serviceable food for children, and meat should be given at least once a day, and to rapidly growing children it may be given twice daily.

Concerning Women.

Leather portieres are among the beautiful things which Mrs. John Hay has added to her historic home in Lafayette square, in Washington. These curtains resemble those in many cathedrals in Europe, but they are illuminated and give an air of privacy to the home. They hang between the second drawing room and the sitting room where Secretary Hay received his intimates.

Mrs. Flora Ames of London, wife of a former attaché of the British embassy at Washington, is in America on a visit and will deliver several lectures on the subject of divorce. She says America is too lax and England too severe in its divorce laws. She suggests as remedies a public registration of names at least three weeks before marriage, communication with parents if either party seems too young, that a man should have sufficient means to support a wife properly and a more strict desertion law.

The wife of the French ambassador, M. Jusserand, is one of the most affable and successful hostesses in the diplomatic corps in Washington. Her maiden name was Elise Richards, and she is the daughter of a Boston banker. She believes, she says, in "wearing harmonies rather than contrasts, and her toilets match in hue from the tip of her toque to her boots. This winter she wore a costume in golden brown which was one of the richest seen in Washington. It was a walking dress of velvet, trimmed with a lighter shade of silk embroidery. Her hat was of the same material as the gown, with a bird of paradise on the right side. Her furs of sable were the identical shade as the velvet, and her boots of suede had velvet uppers.

Thinks Our Spirits Go to Mars.

Lillian Whiting, one of the foremost women writers and thinkers in Boston, believes that after death we go to another planet, where we enjoy life almost the same as on this earth—eating, walking and seeing. She says the spirit leaves the body and travels through ether, but there is something material after all. "Great thinkers," she argues, "have pointed out that the physical body is merely the outer covering of the spiritual body. If that be true our form will be the same in heaven. We will have ears, eyes, hands and feet—all that the body has now. Why should we not walk and talk and work and pursue our aims there as we do here? I think we shall eat. The spiritual body will need food just as the physical body needs it, although, of course, it will be of a different kind." She thinks that perhaps the spirit goes to Mars or to some other planet after leaving here. For that reason she is eager to communicate with that planet.

PERT PARAGRAPHS.

HAVING labored with the legislature, the uplifters are now trying to reform the voters. Perhaps they will get around to the men who dodge taxes.

There is nothing a generous minded woman won't do for a friend except give her her formula for face cream.

A man with a pet ailment is never lonesome.

By the time a mother has quit telling the smart sayings of her babies the grandchildren come along and give her a fresh supply of anecdotes.

When a professional man starts out to demonstrate that he is handy with tools the remainder of the family brace themselves to keep their sense of humor from giving offense.

The man with the health fad mania may usually be known by his lean and hungry look.

You can interest a woman in a new dessert that can be made while the guests are laying off their wraps out of a bread crust and a cry of distress.

Falling into pools of water while playing ball is healthful for small boys, but running errands on a wet day always gives them sore throat.

SOME people are silent because they have nothing to say, but not all who have nothing to say are silent.

When a women's friends say she has temperament they mean she is touchy.

Don't get sore on your chum because he didn't tell your wife the same story you told her. You should have compared notes.

Some women are happiest when they have something to cry about.

A successful woman, according to some authorities, is one who has married her daughter well.

A small boy's list of nuisances is sure to include babies, kindling wood, baths and Sunday school.

The average man never admires a mode in woman's dress until it is passe.

It may be very difficult to spend a million dollars in a year, but more of us would like to demonstrate just how difficult it is.

JUST Rheumacide

IT CURES

Rheumatism and Blood Diseases. The cause of rheumatism is excess uric acid in the blood. To cure rheumatism this acid must be expelled from the system. Rheumatism is an articular disease and requires an internal remedy. Rubbing with oils and liniments may ease the pain, but they will no more cure rheumatism than paint will change the fiber of rotten wood.

Cures Rheumatism To Stay Cured. Science has discovered a perfect and complete cure called Rheumacide. Tested in hundreds of cases, it has effected marvelous cures. NIP IT IN THE BUD.

First Appearance of Dandruff a Forerunner of Future Baldness.

That such is the case has been conclusively proven by scientific research. Prof. Unna, the noted European skin specialist, declares that dandruff is the burrowed-up cuticle of the scalp, caused by parasites destroying the vitality in the hair bulb. The hair becomes lifeless, and, in time, falls out. This can be prevented.

Newbro's Herpicide kills this dandruff germ, and restores the hair to its natural softness and abundance.

Herpicide is now used by thousands of people—all satisfied that it is the most wonderful hair preparation on the market to-day.

HINTS FOR THE BOUDOIR

Pretty Hands.

Great painters of portraits always bring a pretty hand into prominence. Nor are pretty hands studied wholly from the artist's viewpoint. Every society matron knows the value of a pretty hand from the social standpoint. A pretty hand, in the opinion of some, is frequently more captivating than a pretty face. History tells us that even the great Petrarch fell in love with his Laura solely because of her beautiful hands. Even the ancient Aristotle pronounced a fine hand superior to any other attraction in a woman.

To prove that assertion, says an expert, just watch a group of pretty women engaged in a merry chatter in a drawing room. The hand is to the thought what the face is to the emotion. In her hand every woman, even the plainest featured, possesses a power that when developed and trained yields a most subtle fascination.

It has been said by those who travel in foreign countries extensively that no where else on the globe will you find girls who use their hands more attractively than do the American girls. They use them intelligently, and even the idle chatter takes on a new meaning when the sentiment is emphasized by telling gestures.

Hints For Sea Bathing.

The best months for sea bathing are August and September, and perhaps the latter part of July. It is unwise, sometimes even dangerous, to bathe immediately after a meal, and the first dip should not last more than ten minutes. In any case never remain in the water longer than 20 minutes. Do not go in if the body is very warm; wait till it cools a little. Take a brisk walk after finishing dressing. If the bath has been beneficial the body will be in a comfortable warm glow and the appetite keen. If coldness and lassitude are felt it is a sign that sea bathing is harmful to that particular person.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

The Sound Sleep of Good Health.

Can not be over estimated and any ailment that prevents it is a menace to health. J. L. Southern, Eau Claire, Wis., says: "I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley Kidney Pills but a short time and now sleep as sound as a rock, my general condition is greatly improved, and I know that Foley Kidney Pills have cured me." Howard Gardner.

Talk to Mothers.

There is need in the home for cuts, bruises, sores and sprains, children and others are heirs to a real good antiseptic liniment, one which will not burn and hurt worse than the wound itself, and which will give the greatest relief and prevent scars. Vick's Liniment is prepared for this purpose. Take this suggestion from a trained druggist who knows.

HOW ROSA SAW THE COUNTRY

It was only 9 o'clock in the morning, but it was already very warm. Theodore had said, "Let's play we were discoverers," so he and Dorothy were climbing the long hill back of the house. Theodore was Balboa, and Dorothy was one of his men.

"There; that's the Pacific ocean," Theodore said when they reached the top of the hill. "Where that boy and girl are picking huckleberries, too?" asked Dorothy. Theodore watched the boy and girl picking berries in the lot at the foot of the hill. "And I think those are savages," he said. "Let's go down."

"Aren't you afraid?" asked Dorothy, with a very good play shudder. "No," said Theodore. "Keep close to me."

Dorothy kept close to Theodore, and together they went down the hill. When they reached the lot where the children were they climbed the bars.

"How do you do?" said Theodore. "What are your names?"

"Otis Savage and Nellie Savage," said the boy.

Theodore looked at Dorothy. "Isn't it funny?" he said. "They are Savages!"

"Don't you want to play 'discoverers' with us?" he asked the boy. Otis shook his head. "We want to pick ten quarts of huckleberries today if we can," he said. "They'll pay us 8 cents a quart for them at the store, and when we've earned 80 cents we can send for a friend of ours to come up from New York. He's never seen the country, and Mrs. Coates says she'll take him for two weeks if we'll pay for his ticket."

"He's never seen the country," the girl repeated. "His name is Donald McGrath, and he has a sister, Rosa, and she's never seen it either. But Donald's had a broken arm, so we're going to send for him."

By this time Theodore had decided that Otis and Nellie Savage must be the two "fresh air" children who were staying at Mrs. Coates'.

"Would you like to have us help pick?" he asked.

"Tiptop, if you'd like to," said Otis. "Maybe we could all pick enough to send for Rosa, too," said Nellie.

"All right. We'll get some pails and tell mother."

Theodore and Dorothy ran up the hill and down the other side as fast as they could. When they came back they had with them the two Peck children, who lived at the next house, and the three Sheldons, who lived farther

THE BERRIES BEGAN TO RATTLE

down the road, and Freda Andrews, from the foot of the hill. Each of them had a large pail.

"Here we are!" called Theodore, swinging his pail, as he ran down the hill. "We're all going to pick, and we'll call it a huckleberry bee. Our mothers say they'll take all the berries we can pick and pay us 10 cents a quart. They have to pay that at the store."

Soon the berries began to rattle in the bright tin pails, and from all sides came shouts of delight as each child found a bush that seemed fuller than the rest.

When the noon whistles blew and the children all went home with Theodore and Dorothy to carry their berries they found that they had picked twenty quarts.

You can guess how happy Otis and Nellie were when they started for Mrs. Coates', each with a dollar bill, one for Donald and one for Rosa, if Mrs. Coates would take her too.

"We'll come right back after dinner and tell you if she will," they called as they ran up the hill.

It seemed only a few minutes before they were back again.

"She will! She will!" they cried to Theodore and Dorothy, who had seen them coming and run out on the piazza.

As soon as Theodore and Dorothy had finished their luncheon they ran to tell the other children.

Four days later as the noon train came puffing by the station platform. The bottom of it had been spread with straw, and on the high seat was Mr. Coates.

In the cart were Otis and Nellie, Theodore and Dorothy, the two Pecks, the three Sheldons and Freda Andrews—all the huckleberry bee.

And in it also as the train went puffing out were Donald and Rosa, smiling and happy and sitting on the straw with the rest.—Youth's Companion.

Humor and Philosophy

By DUNCAN M. SMITH

PERT PARAGRAPHS.

ISN'T it funny that the man who protests so stoutly that he hates to be conspicuous is always stumbling into the limelight?

Some men's ideal opportunity is a simple minded heiress looking for a husband.

If we had everything we wanted we should be bored to death and therefore want nothing.

A well trained husband is one who likes everything his wife cooks.

If it were not for trading stamps and soap wrappers how should we be able to get any new furniture.

The person who is always relating his own woes never has to listen to the woes of others.

The man who tries to be funny often feels like weeping after the attempt.

Too much powder spoils a girl as easily as it spoils a gun.

The clever man and the funny man are alike in this, that so often they are not.

Speed Record.

The stars in their courses
Are running along
As fast as the horses
Of story and song.
Like bullets they spin it.
The miles that they hum
Are thousands a minute,
And that's going some.

A snail could not travel
As fast as a star.

Its pace on the gravel
Is slower by far.
And if peradventure
A race should be set
The snail would, I venture,
Not be the best bet.

And even an auto
Would hardly succeed.
Although it were thought to
Have nothing but speed,
In racing a planet
For marbles or chalk,
Though confidence ran it
To win in a walk.

The man who is chasing
A girl or a dime
Would fall in his racing
Far short of their time.
They seem to be fitted
For going about
And must be admitted
The fastest thing out.

JAILOR IS LAX IN PERFORMING DUTY SAYS GRAND JURY

The grand jury yesterday morning completed its work for the term and at noon the final report was made in open court through Foreman A. E. Alexander. Judge Daniels thanked the jurors for their work and discharged them. The following report was made:

"Sir—The grand jury has performed the duties assigned, and begs to report: 'The Convict Camp—The camp is well located and everything is in good order. The men, 65 in number, seem to be well cared for, the force well organized and only one indisposed.'

"The Work House—According to the statement made us, the work house is almost self-sustaining. At present there are 28 inmates, only five white. The cook stove is too small and a larger one should be provided. The furnace is so constructed that when the wind blows from certain directions it is not possible to have fire in the building. The fault can be remedied at small cost, and should be done before fall. We also suggest that a small cottage be built for the few colored women who are afflicted with loathsome sexual disease.

"The County Home—We found the home in good condition, the house and premises clean and well-kept. There are 25 white and 19 colored persons in the home.

"The Court House—Apparently a younger and more energetic janitor should be employed. The toilet rooms need to be enlarged and improved.

"County Offices—A visit was made to most of the offices, and from what we could see, we believe that they are conducted in a systematic business-like way. The various officers seemed to take pride in showing the most excellent features introduced in recent years. At the office of the clerk of the Superior court we found that the former clerk had not made complete settlement, although his term as officer expired four months ago. We also learned that many important papers had not been recorded and filed, although same should have been done months ago. We suggest that a settlement be made without delay, and that all papers be properly recorded and filed, although same should

have been done months ago. We suggest that a settlement be made without delay, and that all papers be properly recorded, employing another clerk if necessary.

"The Jail—The recent escape of six prisoners, to say the least, is unfortunate. Had the jailer exercised due precaution in seeing that the locks on the cell doors worked properly and paid closer attention to his duties, the escape would not have been accomplished so easily. We understand that it is comparatively an easy matter to saw the bars to cells on the second floor, and suggest that they be made more secure. Too much miscellaneous material is permitted in the cells, and the interior, as a whole, does not receive as much attention as it should.

"Cases—Thirteen cases came before the grand jury for consideration and thirteen true bills found.

"Respectfully submitted,
A. E. ALEXANDER,
Foreman."

Much Interest in Cleaning up Week

Much interest is being taken by housewives throughout the city in the announcement that the civic department of the Woman's Club has decided to make next week "Cleaning up week" and that they will join most heartily in the project is not to be doubted. The plan to be adopted is a novel one and will serve to add to the interest. With the present facilities for hauling off trash and garbage there is no reason, the civic workers say, why Greensboro should not be spick and span on Easter day. So the ladies urge hearty co-operation on the part of the business men, feeling assured that the ladies throughout the city will do their part in the work. The Junior Civic League will hold an important meeting tomorrow afternoon at 2 o'clock in Necess hall to make final arrangements for the work.

MISS NELSON'S FUNERAL YESTERDAY AFTERNOON.

The funeral of Miss Alice Nelson was held from the First Presbyterian church yesterday afternoon at 4 o'clock, conducted by the pastor, Rev. Melton Clark. A large concourse of friends were present to pay their last tribute of respect to all that remained of a much-loved woman. There was a large collection of beautiful floral tributes. The interment following in Green Hill cemetery, the following acting as pallbearers: Dr. B. B. Williams, C. M. Vanstory, R. R. King, C. G. Wright, R. F. Dalton and S. L. Gilmer. The flower bearers were Mesdames H. D. Blake, Mary Crawford, A. B. Kimball, T. G. Faulkner, Leonard Faulkner, C. M. Vanstory.

LETTER ON WAY SINCE 1838.

Writer and Man He Sent It to Long Dead When Missive Arrives.

Danbury, Conn., April 6.—A letter mailed in Geneva, N. Y., 73 years ago by Peter Bithy to O. S. Paddock, of Yonkers, N. Y., was delivered today to the latter's sister, Mrs. Mary L. Mead, of this city. The letter, written before envelopes came into use, was folded and sealed with wax. It had been mislaid in the Geneva office, but was discovered recently and delivered to Mrs. Mead through the dead letter office at Washington.

The writer and Paddock both died some years ago and Mrs. Mead is Paddock's only surviving relative. The letter referred to timber land owned by Paddock in Northern New York, and through it Mrs. Mead hopes to establish a claim to the property.

Municipal Judge Must Be Elected

The action of the County Commissioners in refusing to establish the county court necessitates the election of a judge of the Municipal court at the coming city election. Had the county court been established Judge Eure would have served for two years by appointment and the Municipal court would have been abolished. Now a judge must be elected.

So far no candidates have announced themselves and there is some doubt as to whether Judge Eure will have any opposition, should he decide to make the race this year. All announcements of candidacy must be filed with the city clerk before next Friday, so the candidates for this and other offices have just seven days to enter the race. After April 14 no person can become a candidate for any of the city offices.

CONTEST

High School Representatives Declaim and Recite Here This Evening.

This evening at 8 o'clock in the opera house representatives from high schools of twenty counties adjoining Guilford will meet in a declamation and recitation contest. This promises to be one of the most interesting events of the kind ever held in the city as it will be the first time representatives of so many rural schools ever met to contest for honors. There will be six young ladies in the recitation contest, while six boys will contest for the declaimer's medal.

The reciters and declaimers will be selected at a preliminary meeting this morning at 10 o'clock, in which representatives of each school represented will participate. The preliminary for the recitation contest will be held in the Smith Memorial building, while the preliminary for the declamation contest will be in the West Market annex.

A large crowd will no doubt be present tonight to hear the boys and girls. In addition to the people from the city a large number of supporters from the various schools will doubtless be on hand.

The Jury has Texas Woman Murder Case

By Publishers' Press.

Fort Worth, Texas, April 6.—The strains of "Home Sweet Home," sung by the counsel for the defense in closing the argument in the case of State vs. Mrs. Lizzie Brooks, who is charged with the murder of Mrs. Mary Binford, brought tears to the eyes of the jury and a packed courtroom and marked the end of the most dramatic trial ever held in the State of Texas. This was perhaps the first trial in the United States in which a woman who killed a woman pleaded the "unwritten law" as her defense. The jury after taking one ballot at six o'clock announced that they could not agree and was locked up for the night.

TENNESSEANS RATIFY INCOME TAX AMENDMENT

By Publishers' Press.

Nashville, Tenn., April 6.—The State Senate today adopted a resolution ratifying the income tax amendment to the federal constitution. The House adopted a similar resolution several days ago.

Slot Machines Get Attention From Solicitor

The slot machines that have been used quite extensively in the city during the past few months are being put out of commission and it is likely that the law regarding these machines will be tested in court. They are most generally used at cigar counters. A customer puts in a nickel and while he always gets his money's worth at times he gets 10, 15 and 25 cents worth, the machine being so arranged, it is claimed, that those who use the machines will get six cigars for a quarter on an average. Solicitor Gattis called the attention of the sheriff to the machines and instructed him to have the owners cease to operate them. Solicitor Gattis stated that he expected that the grand jury would make presentments against parties operating these machines in the city. When asked last night regarding the presentments the solicitor stated that he would not know whether presentments were made until the next term of court, as the presentments would not be opened until that time. It is understood that a number of presentments of some kind were made.

MADERO

Is Advancing to Attack Chihuahua—Camps Within 35 Miles of City—Mexico Town Organizes Insurrecto Government and Begins Manufacturing.

By Publishers' Press.

San Andreas, Mexico, April 6.—Francisco Madero, whose camp has been located about sixty miles from Chihuahua, has advanced to within 35 miles of the city, and it is reported, has ordered the insurgent army to prepare for action. An attack on the city is probable, as Madero is encamped within 35 miles of Chihuahua.

The town of Madero, having a population of 600, has organized a military government under Albino Freis, father-in-law of General Orozco. Industries are being established, among them being two sawmills and two box factories, operated by insurgents.

Americans in the mines and lumber camps of this district are being supplied with food by the insurgents, it is reported.

Cotton Advanced In New York; July Closes at 14.32

By Publishers' Press.

New York, April 6.—The cotton market opened firm, with gradual advances and under lead of July option went to 14.32 before noon, but was quiet during the afternoon. This figure was 13 points above yesterday's close. There was sufficient demand despite the quietness of the afternoon to hold the advance.

Today's close was:
May, 14.48 @ 14.49; July, 14.30 @ 14.31; October, 12.70 @ 12.71.

WANTS MONSTER BATTLESHIP OF THE WORLD BUILT

By Publishers' Press.

Washington, April 6.—The construction by the United States of the most powerful battleship in the world was recommended today by the General Naval Board, of which Admiral Dewey is president. The recommendations call for a dreadnought having four turrets, each containing three new type fourteen inch guns, carrying at the longest fire range shells weighing 1,500 pounds.
